The hummingbird is associated with moving forward with an open heart and transformation. It's wing motion, while invisible to the human eye, moves in the figure 8, also known as the infinity symbol.

Rising Higher

This is your time to soar, embrace all that you are and cast your dreams to the skies and watch the mysteries of life unfold.

There are times in our lives when we feel a beautiful shift in our circumstances. Our power lies in our ability to be gentle and kind with ourselves, while listening to our needs and making self-care a priority. This is when we feel the Universe has our back, we feel supported and we become open to the abundance and opportunities that surround us.

As a result, we become better at supporting and caring for those around us too.

This is when we learn to stand in our own light, stop playing small and become brave enough to seek the path that leads to our highest dreams.
